

## Gala Bingo review version 1

### **Gala Bingo**

Gala has been a household name in bingo since 1991 with their offline bingo clubs, experiencing even more success from 2006 with the launch of their online bingo offering. Today, their totally revamped online bingo product sets them apart from their competition, providing a fun and friendly community, a huge selection of top quality games and jackpot prizes and more winners than anywhere else.

### **Software**

Gala Bingo's software is powered by online bingo developer giants Virtue Fusion, owned by Playtech, and thus gives players a really smooth and enjoyable bingo gaming experience. The software itself is really easy to use and navigate, with everything where you'd expect to find it, allowing you to focus on having some bingo fun! There's a handy little option to search for exactly the game you want by filtering according to game type, ticket price, prize and player numbers. You can also buy tickets automatically, in advance and with a discount when you buy for a session. Plus, there's no need to miss out on your bingo fun simply because you're out and about – Gala Bingo offers a cool version of their software for mobile devices.

### **Games**

Gala Bingo has a simply huge collection of game types in different clubs to keep you mesmerised, ranging from 75, 80 and 90 ball types, to progressive jackpot games, club games, chat host led mini games, room-specific games and a variety of fun slots and scratch games to keep you happy between bingo games.

### **Bonuses and Promotions**

Everyone likes a bit of free cash and Gala Bingo makes it a point to offer exactly that right from the start, with £30 free when you play your first £10. You can then take it to the Newbie Room where free bingo is on the cards for new players.

One of the biggest attractions at Gala Bingo is what's called Gala Live, where you can get a little bit closer to Gala's renowned live bingo atmosphere from the comfort of your own home via webcam. Live callers, often celebs, follow the games and handle the laughs, reading out emails and texts from players and coming up with fun side games and impromptu promos for the live audience. Gala Live stirs up a huge amount of excitement and is definitely a massive feature worth checking out.

Other attractions worth mentioning are Super Books, where you can play for free or pay a little to win even bigger prizes; Windicates, where you form a team and when one of you wins, so does the rest of your team; and Last Chance Saloon, which is a cool little scratch game offered to those who don't win when playing in the Dreams room.
