LIFEGAMES FREE APP AND BOOK NOW AVAILABLE!

As part of FWC's commercial venture [Free World One](#), we're delighted to announce the launch of our LifeGames educational project, after almost two years of research and development.

Change begins with education, and LifeGames is a project to help teach higher social values like cooperation and sharing within the existing education system.

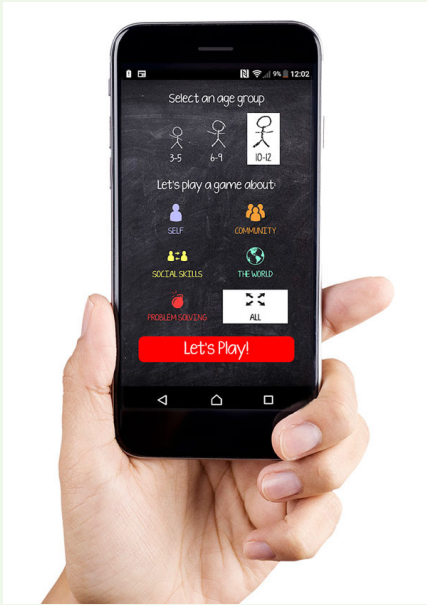

Our research showed a distinct lack of essential life skills development in our current education system, reflected in the increasing news reports of classroom behavioural issues and violence towards teachers...

LifeGames activities and games have been designed to address these issues, providing teachers with the resources they need to take back control of the classroom and nurture today's kids into emotionally mature, respectful and responsible adults.

Learn more about the LifeGames App and be sure to sign up for the LifeGames newsletter for updates, activity reviews, features and more...
