

Established in 2007, SBTech is a leading provider of interactive sports betting solutions and services to traditional and regulated markets.

The complete offering includes an innovative, dynamic and highly customized suite of turnkey and fully managed solutions: an award winning online sports betting platform, an industry leading live betting platform, a fully compatible HTML5 based mobile betting platform, and a premium sports product specifically designed for leading gaming operators, veteran bookmakers and land based operations.

SBTech's powerful live betting platform features more than 12,000 live events monthly, 200+ bet types on more than 20 types of sports and a variety of special bets, all within a sleek, sophisticated and customisable design.

To meet the increasing demand for mobile betting capabilities, SBTech also offers a cutting edge HTML5 based mobile betting platform that's fully compatible with all mobile devices, features full cashier functionality and a smooth, easily navigable user interface for streamlined betting.

SBTech solutions for . We are fully experienced in meeting regulation requirements in various jurisdictions, both within Europe and further afield

Existing gaming operators can add an attractive, competitive and fully managed sportsbook to complete their offering, existing sports bookmakers can cut trading overheads and operational costs by switching to our solutions, and land based operators can optimize their current systems and progress into the online and mobile markets with ease.
