### LifeGames is now LIVE!

Designed to bring back 'lost' life skills and address growing bad behaviour in schools, LifeGames is now LIVE, available as both a free app on Android and iOS devices and a teachers manual on Amazon.

Your input helped highlight a distinct lack of essential life skills development in our current education system and growing demand from teachers for a resource to help address the shortfall. Now that resource is finally here and it's free!

Find out more and download our free app today!
